

LNR Stakeholder Briefing

20 August 2020

**West
Midlands
Trains**

Housekeeping

- Mute yourself – to keep background noise to a minimum, please keep yourself on mute until you are about to speak
- Keeping your camera on takes up bandwidth – switch your camera off to prevent any problems with the connection
- We have allocated time at the end of the presentation for questions. If you would like to ask a question, please type your message in the comments section and we'll come back to you
- We will be sending a feedback form and copy of the slides out to delegates after the briefing

Today's agenda

- Welcome and housekeeping
- Business update
- Upcoming changes to our timetables
- Community Update
- Opportunity to hear from you with your questions and feedback

Business Update

Lawrence Bowman, Customer
Experience Director

West
Midlands
Trains

Passenger Numbers

- Passengers are slowly beginning to return (approaching 25% of 'normal' demand)
- We are starting to see more off peak (leisure) demand

Graph removed

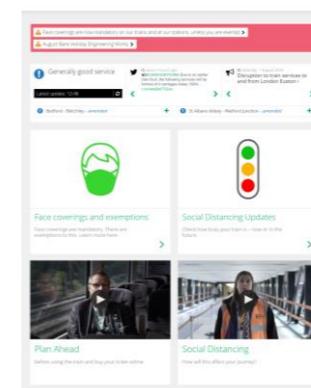

Social Distancing

- More tools and communications for customers:
 - “RAG” status launched on Twitter
 - Train (social distancing) loadings tracker now live
 - Continuing to update and refresh our social distancing signage at stations
 - Extra staff on hand to provide support and guidance

Latest Travel Advice >

London Northwestern Railway
Published by Orlo [?] · 3d · 

Network Rail will be carrying out essential engineering works over the August Bank Holiday weekend (Sat 29 - Mon 31 Aug). As a result, buses will replace trains between Birmingham International – Rugby and Crewe – Liverpool South Parkway.

Please plan ahead and always remember to wear your face covering (if possible) when travelling with us. Find out more here <http://orlo.uk/cBLnh>

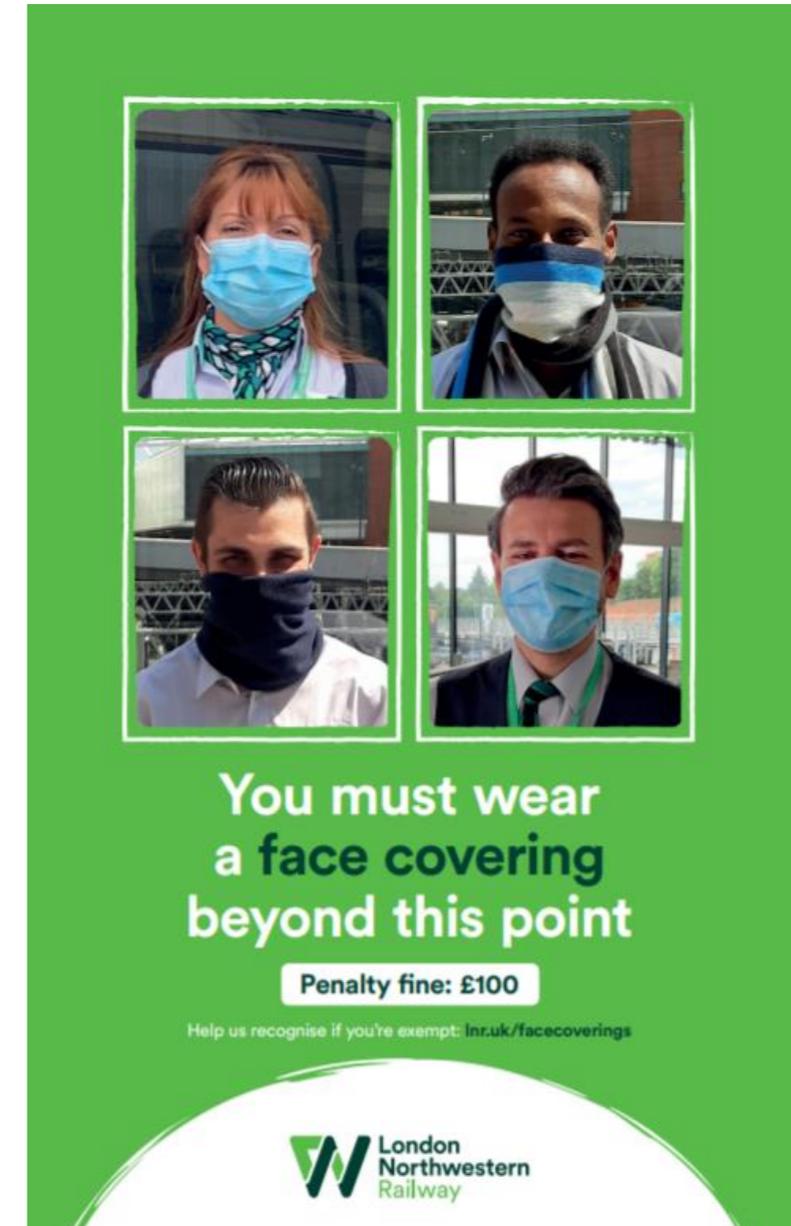

Social Distancing Live Updates

Face Coverings

- Compliance remains high 90%+
- Better in the peaks around big regional centres. Continued focus on off peak and leisure travellers
- Our approach continues to be to influence, encourage
- BTP will enforce and we are working closely with them to ensure maximise effectiveness
- We are refreshing some of our communications to make them more prominent and raise awareness of the fines
- Mandatory face coverings in shops has helped (people are getting used to it)

**You must wear
a face covering
beyond this point**

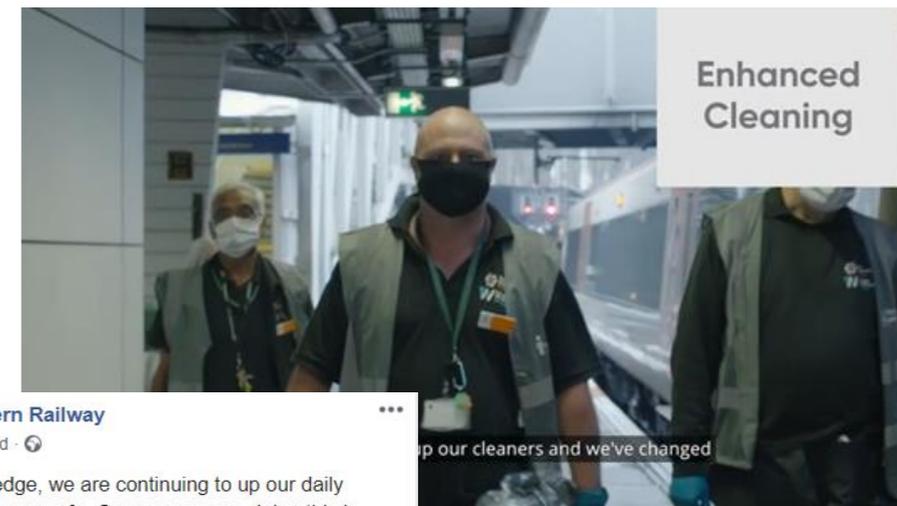

Penalty fine: £100

Help us recognise if you're exempt: lnz.uk/facecoverings

 - Smartcards now being rolled out
 - Flex-carnet tickets
 - Tring access for all bridge and lifts (finally) open
 - Watford Station redevelopment
 - ANPR car park project progressing
 - Cycle schemes

.....we await news of what happens post Emergency Measures Agreement (“EMA”)

September 7th Timetable

'step-up'

West
Midlands
Trains

Next timetable 'step-up'

- DfT asked all TOCs to further step up services on 7th September as shielding and furloughing winds down and schools and workplaces open up
- We expect demand to increase, although it is clear we will be nowhere near back to pre-COVID levels
- Our approach focusses on trying to build on the high performance, resilience and reliability achieved with previous Covid-19 timetables, but also providing capacity where it is needed
- We need to create a better balance, meeting customer and market demands, as passengers start to return
- We must not return to the poor performance following the May 19 timetable change

What's Changing in September

- **24th August** Marston Vale and Abbey line peak services introduced
- **7th September:**
 - High levels of seat capacity across the LNR network, but some of the poorer performing services removed, especially in the peaks
 - Liverpool services maintained as 1tph but double train length to 8-cars
 - Liverpool services terminate at Birmingham avoiding re-introduction of the unreliable New St – Euston leg and reducing delay ‘spreading’
 - 2tph Northampton – Euston off peak
 - High peak – 4tph from Northampton
 - 1tph Milton Keynes – Euston calling most stations to Watford Jn then Euston. Mostly 12 cars Class 350
 - Watford-Euston ‘peak buster’ (mostly) 12-car services to provide much needed capacity on these busier flows
 - 2pth to Tring to move to an 8-car operation
- Train to deliver a balance of capacity v service provision v performance
- Overall sees us delivering c85% of our ‘normal’ peak capacity and 95% capacity all day

Other areas of focus

- Key 'school trains' are in place
- Traincrew readiness
- Fleet readiness
- Customer communications

Community Update

Vicky Cropper-Clark Head of
Stakeholder & Community

West
Midlands
Trains
