London Northwestern & West Midlands Railways

Environmental Policy

At London Northwestern and West Midlands Railways (LNWMR), we are committed to protecting the environment and continually improving our environmental performance as an integral part of our operations and decision-making process. We are committed to:

- **Compliance and Management Systems:** Consider industry best practices and ensure compliance with all legal and regulatory requirements. Commit to maintain and continually improve our integrated Environmental and Energy Management System certified to ISO14001:2015 and ISO50001:2018, respectively.
- **Energy Efficiency and Carbon:** Improve energy efficiency and reduce carbon emissions. Implement our Net Zero Carbon Strategy and achieve net zero for all business operations (including scope 1, 2 and 3 emissions) by 2050.
- **Waste and the Circular Economy:** Develop and implement a Waste & Recycling Strategy; to reduce waste and increase re-use and recycling across the business by considering the lifecycle of a product from production to disposal.
- **Water Efficiency:** Develop a Water Efficiency Strategy and conserve water through good practice and monitoring consumption.
- **Noise and Vibration Management:** Identify, assess, and manage environmental noise across our operations and implement a Noise Management Strategy.
- **Biodiversity:** Support, enhance and encourage biodiversity improvements at our sites, ensuring that we engage with local charities, stakeholders and biodiversity specialists.
- **Design and Infrastructure Projects:** Ensure environmental best practice and energy performance improvement opportunities and operational control are considered from the design phase through to the operating lifetime of new infrastructure projects, facilities, equipment, systems and processes.
- **Sustainable Procurement** Ensure that the environmental impact of goods and services are considered as part of the procurement process Specify the procurement of energy efficient products and services that impact energy performance.
- **Promoting Sustainable Travel:** Provide reliable, convenient, and safe rail service whilst working with our partners to encourage modal shift and support integration of the railway with other modes of transport.
- **Objectives, Targets and Performance:** Set annual SMART objectives, targets and KPI's and regularly measure, monitor and review our performance to drive continual improvement. Communicate progress to internal and external stakeholders.
- **Resources and Capability:** Ensure relevant information and resources are available, be that human or financial, to deliver on our commitments. We will ensure all employees have the skills and capability to help us achieve our objectives.
- **Simplicity:** Adhering to the philosophy of "Keeping it Simple" in all activities.

I will review this policy annually and it will be brought to the attention of all relevant stakeholders.

Ian McConnell
Managing Director
